

Fallen Angels: the Architects of This Present Darkness

How Evil Forces Have Challenged God's Role in Creation with Discredited Science

Summary of the Fallen Angels study

1. Humans are not the source of evil – Satan and fallen angels are
Adam and Eve were deceived
2. Most of the evil thoughts in your head are from outside you
3. Other humans, however famously evil, are not the source of evil and are
redeemable
"We wrestle not with flesh and blood"
4. Remnant Christians do not need to have an inferiority complex re: our
understanding of history, mythology, evil leadership and evil cultures, and the
Bible as a reliable source

Two Part Teaching on Creation and Evolution

- I. Creation: the Bible Narrative vs. Science's Explanation: the likelihood of each
- II. Creation: How Long Ago?

Part I: the Bible Narrative vs. Science's Explanation: the likelihood of each

Heb. 11:3

By faith we understand that the universe was created by the Word of God, so that what is seen was not made out of things that are visible.

Creation is *Ex nihilo: something out of nothing*

Creation came about through God speaking

Gen. 1:3

Then God said, "Let there be light."

By faith we understand:

Not only do believers rely on faith in understanding creation
Atheists, agnostics, skeptics, sciences also must rely on faith to believe in a
spontaneously created, random, purposeless universe

Scientific theorists on the creation of the universe think they are relying on "facts" vs.
"faith:"

But this is simply not true
Their theories are not irrefutable facts
They are assumptions and hypotheses
In history, accepted "facts" tend to come and go

The issue is not "faith" vs. "facts"

The issue is faith in the Bible's writers vs. faith in the writers of scientific theories and hypotheses

Which to trust? Which to have faith in?

The sincere "seeker" (not agenda-driven) hopes to discover the truth about creation,
not deceptions and lies

To find truth we must seek out sources and witnesses who are reliable

Faith in science is not faith in totally and correctly understood facts

My first medical school lecture

The COVID pandemic, the scientific and public health community response

Resulted in discrediting and questioning science authorities

Science is not completely unreliable

Mathematics

Good medical care

God mechanic work

Automobile, air, train, ship, outer space travel

Faith is always needed when pondering the distant past or distant future

Why? Because we were/are not there

The further we go in the past: and the further we go in the future: the more chance
for error

To decide what happened in the past we need reliable witnesses, scribes, historians

To predict what will happen in the future we need reliable prophets

Who has the most reliable witnesses—faith or science?

Famous science misconceptions

Earth-centered solar system (5500 year belief)

For thousands of years of medical science belief in the four humors

Black bile; phlegm, yellow bile, and blood

The "therapy" of purging, enemas, bleeding

Famous science hoaxes

The Piltdown Man

In 1912 pieces of a skull and jawbone were found and promoted as the "missing link"
 But it was in reality created by using a jawbone of an orangutan and the skull of an adult human

The Cardiff Giant

In 1869 a ten-foot petrified man dug up on a farm in Cardiff, NY
 Exhibited and view by thousands
 Turned out to be a fake created out of carved stone

Who are the Bible's reliable witnesses for creation: Moses and the Old Testament prophets

Moses' account of creation is at least 2500 years after Adam and 800-900 years after the Flood

The narrative was passed down to Moses by word-of-mouth and cuneiform or hieroglyphic record

But: clarified and explained by Moses by God in conversation

Ex. 33:9-11

Whenever Moses entered the tent, the pillar of cloud would descend and stand at the entrance of the tent; and the LORD would speak with Moses.... So the LORD spoke to Moses face to face, just as a man speaks to his friend.

THE BOOK OF GENESIS was very likely written by Moses in around 1400-1500 BC

Creation of man 4000 BC

The Flood 2400 BC

The Tower of Babel 2300 BC

The Call of Abraham 2100 BC

Moses 1400-1500 BC

Did written language even exist at the time of the giving of the Ten Commandments (1500 BC)

Cuneiform writing (phonograms) 3200 BC

Proto-Sinaitic writing 1800 BC

Phoenician alphabet 1100 BC

Greek alphabet 800 BC

Paleo-Hebraic alphabet 800 BC

"Modern Hebrew" 250 BC

The Apostle Paul teaches us that man can know about God and Creation because of General and Special Revelation

General Revelation

Rom. 1:20

For since the creation of the world His invisible attributes are clearly seen, being understood by the things that are made, even His eternal power and Godhead, so that they are without excuse

Ps. 19:1-2

The heavens declare the glory of God; the skies proclaim the work of His hands. Day after day they pour forth speech; night after night they display knowledge. There is no speech or language where their voice is not heard. Their voice goes out into all the earth.

The Zodiac: hijacked by Satan from its original symbolism explaining creation and Christ
Virgo; the Lion; the Fish; the Ram; the Bull, the Scale

Special Revelation

Heb. 1:1-2

God, who at various times and in various ways spoke in time past to the fathers by the prophets, has in these last days spoken to us by His Son, whom He has appointed heir of all things, through whom also He made the worlds;

John 1:14

And the Word became flesh and dwelt among us, and we beheld His glory, the glory as of the only begotten of the Father, full of grace and truth.

Ps. 22:16-18

For dogs surround me; a band of evil men encircles me; they have pierced my hands and feet. I can count all my bones; they stare and gloat over me. They divide my garments among them and cast lots for my clothing.

Jesus in Matthew 24; John in Revelation

We trust the Bible, Noah, Moses, David, Isaiah, Jesus, Paul, John

Recall my teaching on the satanic attack on reliability of the Word of God

This attack has been quite successful in academia and everywhere except in orthodox, evangelical, and fundamentalist Christianity

This attack is untrue, a deception, and is discreditable

Romans 1

For although they knew God, they neither glorified Him as God nor gave thanks to Him, but they became futile in their thinking and darkened in their foolish hearts. Although they claimed to be wise, they became fools, and exchanged the glory of the immortal God for images of mortal man and birds and animals and reptiles. Therefore God gave them over in the desires of their hearts to impurity for the dishonoring of their bodies with one another. They exchanged the truth of God for a lie, and worshiped and served the creature rather than the Creator, who is forever worthy of praise! Amen. For this reason God gave them over to dishonorable passions

The consequences of these fallen angel's and their human followers' arguments establishing their atheistic worldview are:

God not receiving the credit He deserves for creation

God not receiving the worship He is due for His creation, His love, His redemption

Mankind worshiping the creation and fallen angels instead of God

Mankind becoming more lawless and immoral

Man who is made in the image of God is trivialized to be just another animal

Giving philosophical permission to devalue, exploit, kill, enslave individual humans and entire races and nationalities

As we see in all forms of slavery, racism, war, murder and abortion

All "legitimized" by Social Darwinism

Supporting a world ruled by Satan, Baal, Ishtar, Molech

Not by effectively ruled by Jesus Christ: "the Prince of Peace"

Today's talk is an evidence-based, rational argument against science and Darwinian evolution as an explanation for creation and life

Science's arguments are deeply flawed, agenda-driven, and preposterously unlikely

What existed before our universe?

Scientists admit that one knows.

A quote from a prominent scientific website

"How our Universe was born from nothing or if there was something that existed before it remains a mystery."

Current Theories

All creation came from a singularity resulting in the Big Bang

Or it always existed

Or it is one of many multiverses

The Big Bounce (black holes)

The Big Bang theory says that our universe began as a point of infinite gravity and density called a singularity.

Then, in a trillionth of a trillionth of a trillionth of a second, it exploded outward, doubling and re-doubling and re-doubling in size at a rate faster than the speed of light in a phenomenon physicists call inflation

The singularity was the size of a peach with a temperature of 1,000,000,000,000,000,000,000,000 degrees

This created the vast universe with its atoms, molecules, stars, galaxies, planets:
And the complexity of human life, plant life, elaborate ecosystems arose from inorganic matter and then an organic primordial soup

Evolution and Darwin: in 1850 science had no idea of the complexity of life
Darwin's "reasonable" – picture of apes to men

Scientific findings since Darwin have revealed such complexities to make Darwinism from primordial stew to human completely statistically impossible

Science has had 150 years to "repent" of their foolishness, but has not

- Our galaxy, the Milky Way:
 - Has 200 billion stars
 - Is 150,000 light years across

- The nearest galaxy to ours is Andromeda
- The Andromeda galaxy is 2,000,000 light years from the earth
(11,600,000,000,000,000 miles)
- The Hubble light telescope has identifies 1500 galaxies near us
- Radio telescopes put the estimate of the number of galaxies at 100 billion.
- If each galaxy averaged 200 billion stars, the number of stars in the universe would be:
 - 20,000,000,000,000,000,000 (2.0 X 10²²)
- The number of potentially habitable planets in the universe is 10 billion

Hubble galaxy photo

The uniqueness of the earth:

In the “Goldilocks zone” (the distance from a sun that is “not too hot, not too cold”)

The earth’s iron core creates the magnetic field around us that shields us from excess solar radiation—we would not survive it

Only iron can perform this

Our sun creates as its heaviest element, iron (Atomic # 26)

Where did the heavier elements on earth (nickel, copper, zinc, lead, gold, uranium)?

The Periodic Table of the Elements

From a supernova that exploded nearby the earth during its cooling and formation (?!?!?)

The rotation of the earth and its tilt of 23.5° is perfect for plant and animal life and seasons

The amazingness of the animal cell

The amazingness of the plant cell

The amazingness of the plant cell chloroplast

The amazingness of metabolism (food to movement)

The amazingness of the human body:

The brain: 85 billion neurons; 150 trillion connections (synapses); perhaps 100 neurotransmitters

The heart: beats 2.5 billion times in a lifetime

We have 60,000 miles of blood vessel

Another problem for scientists beside the complexity of things: entropy

Entropy defined: matter in isolated systems tends to move from order to disorder

The need to repair, intervene intelligently to maintain complexity

Your car, your home, your body

747 from junk yard analogy

Sum:

Science speculates something coming from a singularity (all the universe existing at one point)

They propose no good explanation for pre-singularity

Could a singularity with all the matter and energy in the size of a peach even exist?

Who thinks this way?

What is an the estimate of the statistical probability that life evolved on a planet in the universe randomly, without design, without the guiding hand of an intelligent creator?

It is hopelessly remote

It Mega-Millions lottery X trillions remote

Atom nucleus picture

The chance that the strong and weak nuclear forces in the atom are so perfectly balanced, that the number of electron and protons are correct, and that electromagnetic energy and gravitation are set perfectly: $\frac{1}{10^{200}}$

The likelihood that the most primitive cell (with its DNA, RNA, protein synthesis, ability to divide and reproduce) self-assembled from an organic and inorganic sea: $\frac{1}{10^{250}}$

The total number of atoms in the universe: $\frac{1}{10^{80}}$

Science's explanation for how these odds could be overcome?

The existence of *multi-verses*: many more universes than our own, since our universe is not big enough nor existed long enough for this probabilities to have possibly occurred?

The number of "multi-verses" that are speculated to exist in order to pull this off?: $\frac{1}{10^{500}}$

The likelihood that the universe was created the current scientific explanation versus created by an omnipotent being

Favors an omnipotent being (*or at least some other, better explanation*) because of the sheer impossibility of the scientific model

In truth, the process of organizing the universe was not random: it involved differentiating and creating *order out of chaos*

Differentiating light from dark (energy from space)

Differentiating energy from matter ($E = mc^2$)

Differentiating the water in the heavens (clouds) from water on earth (the seas)

Dividing the dry land from water

Differentiating living from non-living things (plant life vs. inorganic matter)

Making distinctions between unconscious life forms (plants) and conscious life forms (animals)

Making a God-conscious, God-communicating, creation-pondering, spiritual being (mankind)

These differentiations took intelligent, deliberate, outside intervention into the system
And are "recorded" in the Genesis chapters 1-2 account of creation

The notion that all of this wonder spontaneously created itself is mock-worthy

The truth: our Creator, the God of the Lord Jesus Christ made the universe and earth for us, for His creatures, and for His pleasure

The spirit in which He made them was love, consideration, blessing, helpfulness

Not in a cold, impersonal, random, survival-of-the-fitness effort

And in the same *Spirit* in which the Lord created us, we offer the Christian explanation of creation to the unbelieving world

Deut 29:29

The secret things belong to the Lord our God, but those things which are revealed belong to us and to our children forever

Prov. 25: 2

It is the glory of God to conceal things, but the glory of kings is to search things out

Heb. 11:3

By faith we understand that the universe was created by the Word of God, so that what is seen was not made out of things that are visible.

We are most blessed, fortunate, to know the truth

We do not need to be ashamed of what we know

Rom. 1:16

For I am not ashamed of the gospel, for it is the power of God for salvation to everyone who believes, to the Jew first and also to the Greek.

But we cannot be arrogant; we must be humbled, kind, patient

II Tim. 2:24-26

A servant of the Lord must not quarrel but be gentle to all, able to teach, patient, in humility correcting those who are in opposition, if God perhaps will grant them repentance, so that they may know the truth, and that they may come to their senses and escape the snare of the devil, having been taken captive by him to do his will.
