2. “Prayer of the Afflicted” Chronicles:

- Lord, we ask that you revive and quicken the afflicted according to your word. Give life according to your promise so that each individual will be without pain. The sick will meditate upon your promise and will be healed because great is your mercy. We will never forsake your promise that you are near, Lord. “Empower me to live” is the cry of the afflicted. There is a promise in there that the sick will be healed and set free from all afflictions, and their steps will be steady from your promise. And the Lord said, “It is done, my children”.
- Lord may your steadfast love revive and quicken those that are afflicted. Give new life, health, and healing according to your promise. We declare that your mercy is great. Let your people know that you are near. Empower them to grab hold of life that they may live. We declare as a House of Prayer that God has a promise for your healing. Stay strong, hold on to God’s promises for you. And your reply to the Lord is, “Make my steps steady through Your promise.” Lord God, we thank you, “It is done” in Jesus’ name.
- God, you love me. So, Lord I ask that you give life according to your promises as I meditate on your promise. Revive me, quicken me, for great is your mercy. The Lord is near so he will empower me to live. There's a promise in there, so Lord make my steps steady through your promises because we know it is done.
- A prayer of the afflicted: Revive me, Lord, and quicken me in my affliction to effortlessly cry out to you in praise for the life you have given me. Give life according to your promise to stimulate healing in my heart, my soul, my spirit, my mind, and my body. I choose to meditate on your promise that freedom reigns in my spirit by the power of your spirit. Great is your mercy on me and over me as I walk the path of this affliction into the glorious place of my healing. The Lord is near to me as I focus on your word; which causes me to be enlivened by the truth of your word and the life that comes from your word. Empower me to live beyond this affliction and come to me now and make me alive. May my heart be softened, Lord, as Jesus reigns in the place of my affliction—because there’s a promise in there! As I wait on my healing, make my steps steady through your promise as I declare and proclaim by faith: “IT IS DONE!” Amen.
