- **“Great, Great Grands” Chronicles:** (For Pastor Abel and Angelica-Cuba)
  - Father, God, as Pastor Abel and his wife, Angelica, are released back to Cuba, we thank you for the partings that you are going to release onto them with double your great favor—so that there will be an increase in their ministry and in their personal walk with you. Lord, may their harvest be more than plentiful even as it increases their territory because of their great faithfulness. May your provision for them never be found wanting. They both have a strong foundation in Jesus, and as they know, that will be essential for the test that is set before them. Pastor Abel and Angelica, your faithful promises are your armor and protection, and as you return, your voice will fill the air with prophetic singing, declaring a new song unto the Lord. And you will use the war club. God is giving you this night to pierce the darkness in your land. Stay hidden in the presence of the Holy Spirit as he blows his fresh wind over you. Use your shield wisely and tactically as you push through the enemies' advance. Remember God's banner over you is love and his mighty power is working in you to tear down strongholds so that his name may be a shout and praise in every voice in Cuba.
  - Lord, we pray over Abel and Angelica and your ministry through them a parting with increased favor that can only come from you. May this parting of the water in front of them bring a blessing of double favor from you; and may their humility keep them hidden inside the favor. The harvest is plentiful in Cuba, so we ask you, Lord, to increase their territory for your kingdom; and increase your provision for them as you move them forward so that they never have to doubt the perfect timing and abundance of your provision. We ask you, Lord, to make Abel and Angelica strong in the foundation of Jesus as you remind them tonight that “your faithful promise is your armor and protection” that comes only from you. Abel already moves in prophetic singing, so we ask that as he sings a new song unto you, you would make these songs the war club in his hand over his family as they march on. Lord, we thank you that Abel and Angelica and their family are always hidden in the presence of the Lord. And we call forth a second wind to blow upon Abel and Angelica as you breathe your fresh wind through them for this next part of the journey. Abel and

Angelica, hear the Lord say tonight, “My shield is a banner over you and the banner over you is love.” Now we pray that God's mighty power working in you will be increased with every passing year of the rest of your lives. And we say yes and amen.

- Prophetic word from Dan Hanselman: Jeremiah 51:20—You are my work club. My weapon for battle with you. I shattered nations with you, I destroyed kingdoms.
  - And I hear the Lord say that I have made you a rock. And that as the enemy has come to try to chip away, you have not faltered, but you have stood strong and tall. And he says that no weapon formed against you will prosper; but you will turn that weapon on the enemy, and you will see the enemy flee before you. The provision is there. You have the hammer—lose it on an enemy. Do not take for granted what you are receiving. For the Lord is there to direct and guide you. And in your obedience, you have been faithful and the sacrifice has been great; but the love of the Lord is greater in you and he is and filling you even more with his love to pour out upon that nation of Cuba and you will see a turnaround. There's a turnaround coming, and you will be in the midst of it. You will ordain others with your joy and peace and the love that the Lord has placed in you. Send them out into the fields and they will bring in a harvest along with you; for you are not alone for the Lord has organized and brought alongside you Aaron and Moses and Hur and you stand tall. You stand tall. With the joy of Lord in you and the song in you to loose upon the nation as the Lord has said. For there is a mighty move coming to Cuba. It will be an explosion as you have never seen before. The government will fall on their knees before the Lord God almighty and you will deliver. You will deliver them into the hands of the Lord. For that kingdom that the enemy has over that nation is falling. It will not stand for the Lord has seen your tears. He has heard your cries and he is moving on your behalf. So, do not succumb to those negative words that the enemy is whispering to you that say, “You were lacking so much if only you could be somewhere else.” No. The Lord says “No, I have placed you there. I have made you a rock and I have called you and you have been obedient. So, watch what I do from this day forth” says the Lord. Amen.
